### Manage from Anywhere

Gain convenient system access anytime from your smartphone, tablet, or the web for a range of remote management capabilities. Remote monitoring allows you to conveniently view, manage, and monitor your irrigation controller.

### Save Water

Advanced, web-based climate monitoring uses local forecast data including temperature, precipitation, wind speed, and other factors to automatically adjust your irrigation system to area weather conditions, ensuring plants remain healthy — rain or shine.

**No more wasted water. No more dead plants.**

### Protect Your Landscape

Designed to manage different landscapes across various climate zones, Hydrowise™ prevents over- and under-watering to ensure your plants get exactly what they need to remain healthy and flourishing.

### Add Your Contractor

Built-in flow rate and valve monitoring instantly alert your professional landscape contractor in the event of a problem, so you can rest assured that your outdoor living space remains protected and your irrigation system is in good hands.

*“Every summer, our water bills are over \$100 just to keep our small grass area and other plants green. Since installing the Hydrowise unit, our water bill has gone from \$137 to \$74!”*
